Properly fitted shoes now mean better feet in the future!

A child's foot is constantly evolving. In the first 11 years a child's foot grows about 17 shoe sizes and continues to grow until they are 18 years old. Often this growth happens in spurts which makes it tempting to buy your kids' shoes a little too big.

However, this is just as bad as footwear that is too small and can result in long term damage to their feet.

It is essential to get children's feet measured properly every time new shoes are needed. Thanks to our highly trained Fit Technicians, getting the right FIT is easy at The Athlete's Foot.

## NEW BRANDS AVAILABLE

The Athlete's Foot now has a larger selection of school shoes available.

With good quality brands like Clarks, Kroten and Ascent you're sure to find something to suit your taste and budget.

Selected models available in 1/2 sizes and widths

Is your school on board?

The Athlete's Foot runs a School Rewards Program to help participating schools with the cost of sporting goods or other equipment. Ask in store for participating schools and more details on how to get your school involved.
